

Franklin Central Summer School 2020

June 2- 26

FC Teacher Access Hours

8 am to 12 noon

Due to the limitations the COVID-19 virus has created, Franklin Central will provide two summer school options for students.

1. Students who need to recover credits in Biology will complete their class through a Canvas page with an FC science teacher.
2. All other credit recovery courses (except math, see below) can be completed by choosing the GradPoint option.

Students who need to recover credits in Algebra I, Geometry or Algebra II should plan to enroll in Indiana Online Academy. No math courses will be held through Franklin Central. IOA can be accessed at <https://indianaonline.org/>

Registration will be from May 1- Friday, May 22. If there are remaining seats in Biology or GradPoint after May 22, enrollment will be re-opened. Seats will be open to graduating seniors first then juniors, sophomores and freshmen, in that order. Register [here](#) for 2020 Franklin Central Summer School.

Please consult with your counselor if you have questions.

Students will be notified when they have been placed in class and can begin.
